Memorandum

DATE: March 27, 2012

SUBJECT: Medical First Responder Recertification

TO: Students

You have been selected to attend the Medical First Responder Recertification course at the Danny Rhynes Training Center on April 9-11, 2012. Class will begin at 0900 hours on Monday the 9th and conclude at approximately 1700 on Wednesday the 11th.

Pre-course work instructions:

You will need to utilize the Brady 8th Edition First Responder textbook for your study and reference needs. This text was provided at your 40-hour course or at your previous refresher. Please complete the pre-work package which can be found on the Danny Rhynes Training Center web page under the Current Training Center Schedule, utilizing the textbook as a reference, and return all pre-course work to the Danny Rhynes Training Center on the first day of class. Failure to meet this deadline will result in being dropped from the course.

This package represents 8 hours of mandatory 24 hours of instruction that is required to meet the U.S. D.O.T. re-certification elements. You will be provided 16 hours of classroom instructions in conjunction with 8 hours of pre-work. Failure to successfully complete either portion of instruction will result in an incomplete score and failure of the re-cert requirements.

Please be sure to bring your First Responder textbook to class with you the first day, as you will need to refer to it throughout the duration of the training session and no additional copies will be available for your use.

Casual civilian dress is appropriate for this course.

Any questions regarding this course may be directed to your district training coordinator.
